APPROVAL OF STATE ENGINEER
This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 31119 is issued subject to the terms and conditions imposed in said Permit 31119 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.  The amount of land irrigated under this permit is limited to 5.0 acres within the place of use.  This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.  The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal, and local agencies.
The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not
to exceed 0.1 cubic feet per second, but not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources and not to exceed 20.0 acre-feet annually.
Work must be prosecuted with reasonable diligence and be completed on or before May 16, 1985
Proof of completion of work shall be filed before
Application of water to beneficial use shall be made on or before May 16, 1985
Proof of the application of water to beneficial use shall be filed on or before June 16, 1985
Map in support of proof of beneficial use shall be filed on or before
